VISIT TO ZSI

Visit Details

- Date of Visit: 27/09/24
- Location: ZSI Solan
- Participants: Students of BSc 3rd year and BSc 2nd year (Life sciences)

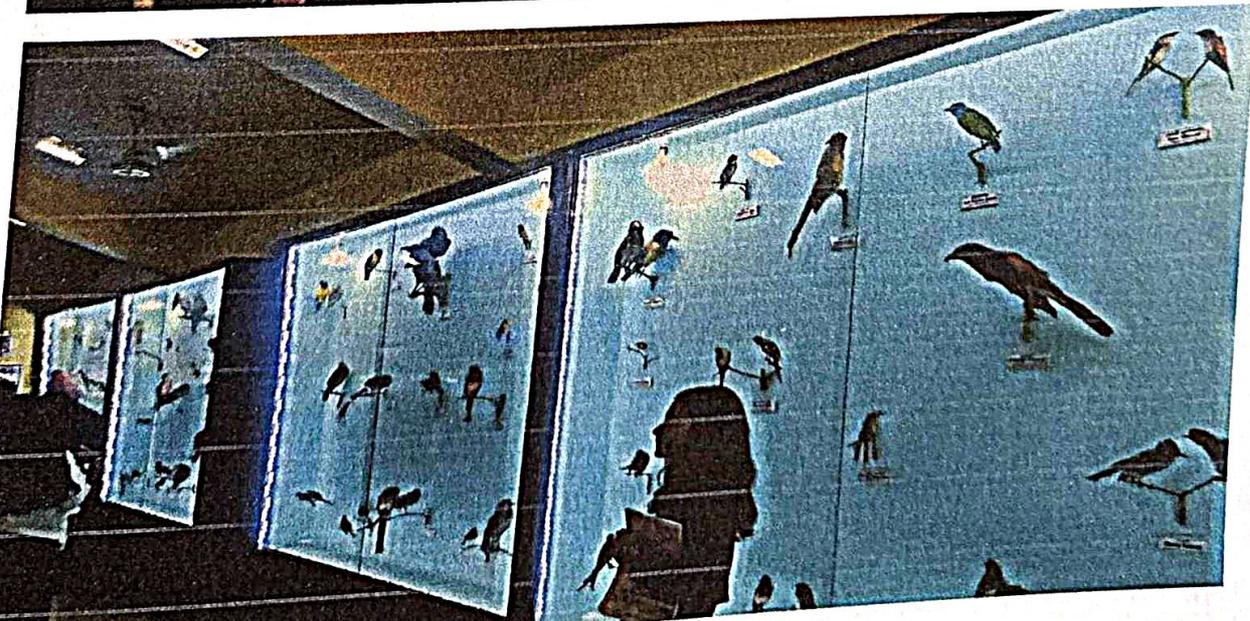

All the students were directed to gather at the ZSI at 10:00 AM. After that all students were taken to the conference hall where all the scientists of ZSI shared their valuable information with all the students.

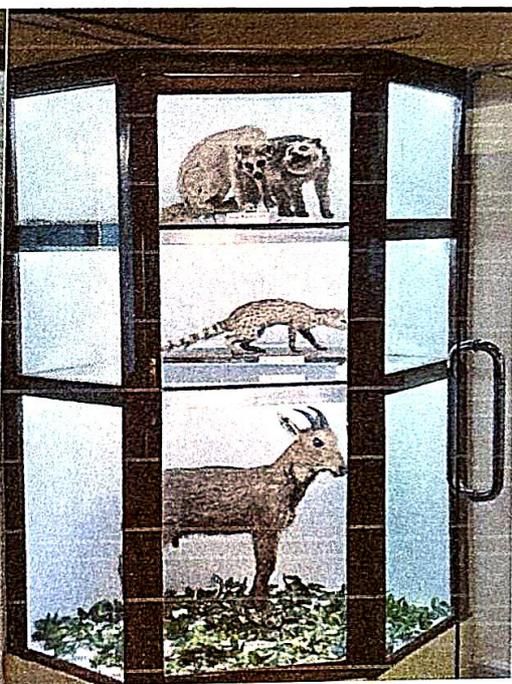

Dr. Avtar Kaur Sidhu gave the welcome speech, and after that, she presented on butterflies in India, highlighting their work in exploring new species, as well as the collection and preservation of specimens.

Museum Tour

Following the learning session , we were taken on a guided tour of the ZSI museum. The museum houses an extensive collection of preserved specimens, showcasing the rich biodiversity of India. We observed various exhibits, including rare and endangered butterfly species, insect collections, and other fauna specimens. The tour provided us with a deeper understanding of species classification, habitat conservation, and the role of museums in scientific research.

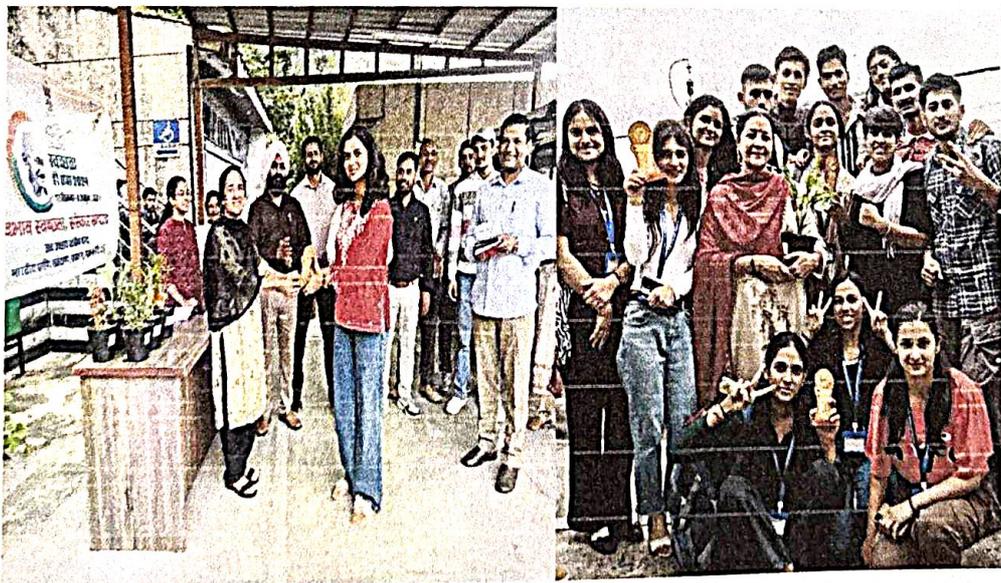

A glimpse of the museum at ZSI:

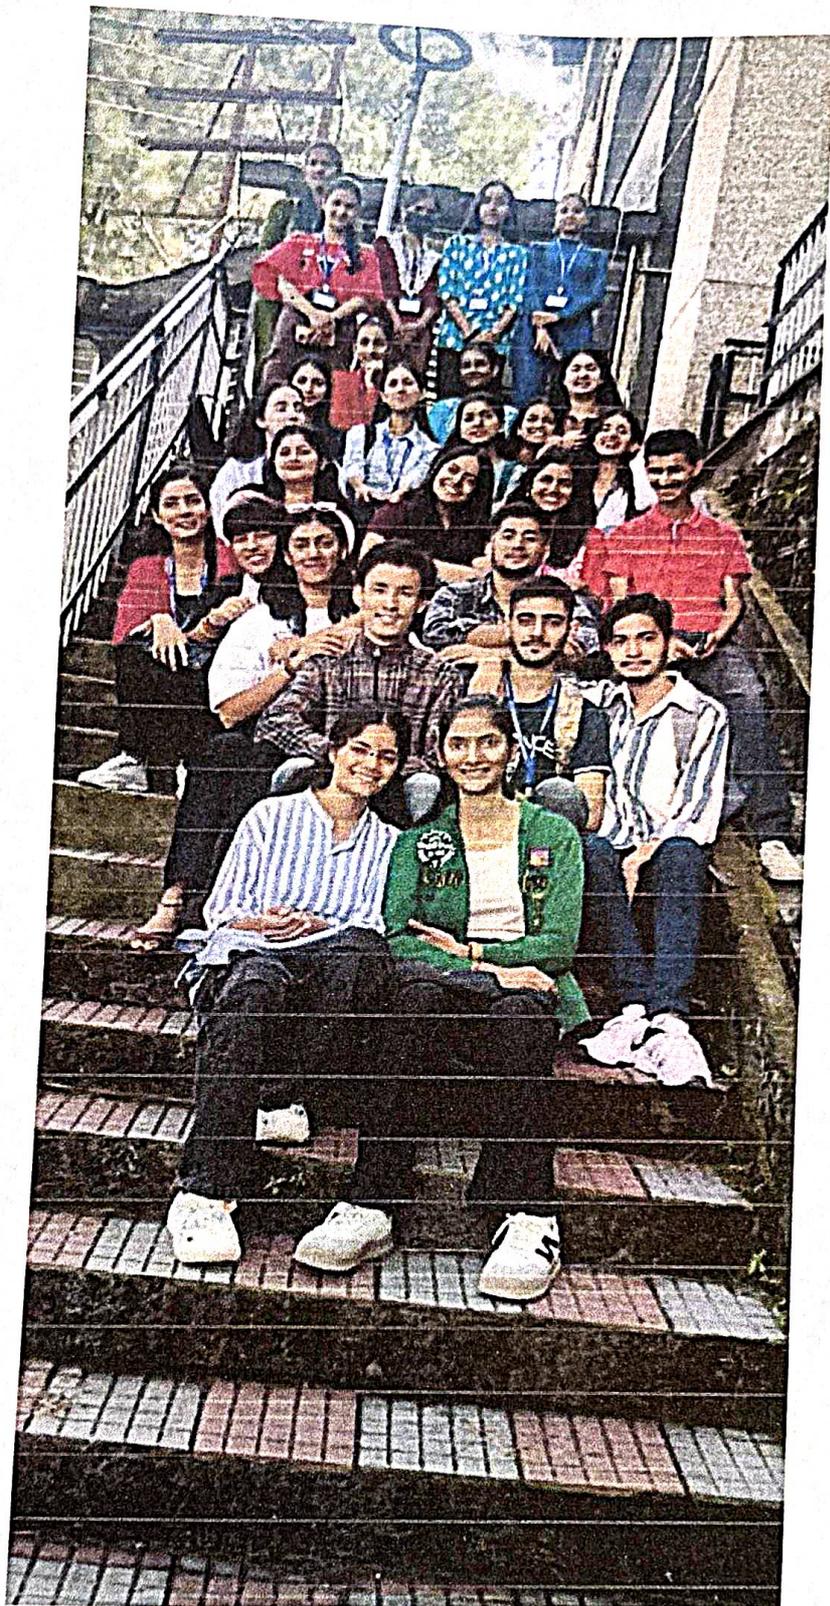

Various Activities

In addition to the training sessions, several activities were conducted during our visit. A group presentation under the "Swachhata Hi Seva" initiative was held, where participants shared ideas on cleanliness and environmental conservation. Additionally, an extempore talk competition was organized, allowing students to showcase their public speaking skills and knowledge on various topics. The winners of the competition were awarded prizes for securing the 1st, 2nd, and 3rd positions. In between the presentation the students were provided with refreshments.

THANK YOU
